Anagrams

- Description: Anagrams is a game in which the player must create words formed by rearranging the randomly given letters.

- License: GPL v3.0

- Language: Java

- Repository: Centralized

- Website:
  https://github.com/tdurkin18/Anagrams

Anagrams

- Goals:
  - 1. Create a server to support two players
  - 2. no GUI issues/server lag
- Future goals:
  - 1. Make a web version

- Progress:
  - The home screen is working.
  - Basic layout for the game board is done
  - Random letters generator is working
